

Cookie Policy

The website uses cookies to facilitate and personalise the user's browsing experience; by browsing the Website, the user agrees to the use of cookies in compliance with this document. This notice represents an extension of the cookie notification banner displayed when users first connect to the home page of this Website. There exist two categories of cookies:

- technical cookies: these are necessary for correct functioning of a website and to permit browsing by the user; without these the user may not be able to visualise the pages correctly or to use some services.
- profiling cookies: these are used for creating user profiles to send advertising messages in line with preferences shown by the user during browsing.

Cookies, whether "technical" or "profiling", can also be classified as:

- "session" cookies, which are deleted immediately on closing of the browser;
- "persistent" cookies, which remain in the browser for a determinate period of time; these are used, for example, to recognise the device which connects to a website, facilitating user authentication operations;
- "own" cookies, generated and managed directly by the operator of the website on which the user is browsing;
- "third party" cookies, generated and operated by parties other than the operator of the website on which the user is browsing.

The Website uses "technical" cookies and in particular the following types of cookie:

(i) own cookies, session or persistent, necessary to allow browsing on the Website, for the purpose of internal security and systems administration;

(ii) third party cookies, persistent, used by Website to send statistical information to Google Analytics, by way of which the Company can perform statistical analysis of access/visits to the Website. The cookies used pursue exclusively statistical purposes and collect information in aggregated form. By way of two cookies, one persistent and the other session (expiring on closure of the browser), Google Analytics also saves a register with times of commencement of visits to the Website and exit from same. It is possible to prevent Google from taking the data by way of the cookies and the subsequent formulation of the data by downloading and installing the plug-in for browser from the following address: <http://tools.google.com/dlpage/gaoptout?hl=it>

You can choose to which cookies to give your consent. In the case of third party cookies, users shall provide or deny consent directly to the owner of the cookie in question, to which the Company merely refers: most

third party cookies present on the website can be disabled by users on their own browser or by consulting directly the sites of the operators using the links indicated in the table below. In any event, we point out that disabling cookies could impair your ability to use the Website and/or prevent you from benefitting in full from the available functions and services.

The following table describes in detail the cookies present on the Website. The link to the privacy policy of the party which generates and manages those cookies is shown alongside each "third party cookie":

COOKIES	TYPE	PURPOSE	PRIVACY POLICY
https://www.andromedagroup.eu/	First Party - Session and persistent	Cookies required to make navigation on the Website possible, for internal security and administration purposes, as well as to memorize the language selected by the user	This page
google.es google.com	Third Party - persistent	Cookie for the Google Analytics service	https://support.google.com/analytics/answer/6004245?hl=en https://tools.google.com/dlpage/gaoptout?hl=en

Instructions for operation of cookies on the various browsers:
